Googledrive and torrent, download now and get the updated game to the latest version. Unless, of course, you want the whole thing to take about a month. (See "Download" in the "Tips" section.) You need a Google account to access Googledrive. Also, since you won't be able to access this file if you don't already have a Google account, you need to create one right now. You then need to sign in to your Google account and verify the email address you're downloading the file from. After that, the file will appear on your Googleplay. dd2bc28256
