Nice! by: Mike_Franklin Nice! has a rating of and review date of Dec 17, 2011, based on 4 ratings T. Martin Fairly Good I find this to be a pretty good program. I've used many other programs to do the same things, but this one seemed to be the best. I use it to make a playlist of files, then encrypt it, and then when I want to decrypt it, I just enter the url to where it is in my computer. I love the fact that it allows me to create a playlist of files and automatically encrypts them. I use it on my PDA, and it works well. by: Cody Good program. Average I'm looking for a program to encrypt my MP3s, but I've found so many different types that it's hard to find one I like. I found this one and am looking forward to trying it out. by: Bruce Good program Excellent By far the best program I've found so far. Simple, easy to use, good looks, and much more. by: jk4 Good program. Good MP3 Guard MP3 Protection has pretty good features. It is pretty easy to use and I like the album title and album art. I would recommend it to others. by: Unknown About a month ago, I needed to encrypt a song or two. This program does everything that I need it to. by: kirby-otter Good program Pros: Easy to use,

As you might have guessed, P2P support isn't implemented in the standard client. If you want to use P2P support, you'll need to install the separate P2P client. Using P2P support is simple. You just need to right click the file you want to share, choose "Share" and select the file type you wish to share. You can also use it to add more than one file to a folder, and choose to make it public or not. When you're finished, click the "X" to close the dialog. This method is handy if you want to share something private. You can set the folders permissions and file-type you want to share, and you don't need to run any extra software.
